Driving to and from work can be one of the most stressful parts of the day, from fighting traffic to dealing with other stressed-out drivers, your daily commute can cause unnecessary tension. Fortunately, the E-Tourer electric bike can change the way you view your travel time.

With top quality electric and bike components the E-Tourer is designed to transport you quickly and will get you to your destination with minimal effort.

The E-Tourer is powered by a powerful 36 volt/ 10 amp Advanced Lithium Ion Battery. These types of batteries give up to between 800 - 1000 charges and weigh all of 4 kg. When you compare this to a Lead/Acid battery with a weight of 10kg and a charging capacity of between 300 - 400 times you know you're buying a quality product.

When you're speeding along in traffic you want to be sure you have full control of your bike, this is why the E -Tourer comes with a Rear Disk/Servo brake systems.

With a Quick shift Seven Speed Shimano gear system you are not limited to the speed of the electric motor. You can experience the best of both worlds, exercise and power assist.

More than just a commuter bike, E-Tourer is enjoyable to ride and provides adequate exercise when you're in the mood for a workout. Buy the E-Tourer today and start cruising along in safety and style.
