Rise and Recline Chair

A highly affordable yet excellent Rise and Recline Chair the Space Saver chair with its high specification and superb comfort is designed with the home user in mind.

The Space Saver chair has the unique function of being able to recline and lift whilst next to the wall - this is due to the special lift and recline mechanism allowing the chair to lift and recline or lift and tilt. This is a great way to save space within your home.

Space Savers (wall huggers) are proving to be a popular choice with recliner chairs due to this unique feature

The Space Saver Rise and Recline chair is available in three colours (Dark Brown, Light Brown and Bordeaux)

The Space Saver Rise and Recline chair is supplied with an Okin motor. This quiet reliable motor allows the user to achieve multiple comfortable positions.

The Space Saver Rise and Recline chair is supplied with a stylish 2 tier back design giving even further support to the back and neck sections - making the Space Saver chair a popular choice.
